

Insta-Putty Silicone Earplugs

Insta-Putty is made of high-grade silicone that is hypoallergenic and non-toxic. Insta-Putty helps prevent water from entering the ear while swimming, showering and bathing. It also reduces loud and annoying noises when used as directed. Insta-Putty is available in one pair (IP 2000) and two pair (IP 1000) packages.

SWIMMING

Insta-Putty is chemically formulated, by Insta-Mold, to offer a superior product with the following physical characteristics:

- Hydrophobic for greater water repellency and greater water protection
- Cushioned soft for comfort and easier molding to the outside of the ear
- Increased co-adhesion to normal tissue of the ear
- Pigmented for greater aesthetic appeal — Insta-Putty earplugs blend in with the color of most ears.

SHOWERING

SNORING

Recommended by physicians worldwide, Insta-Putty is an ideal product for motorcyclists, light sleepers, travelers, pilots, children and anyone else looking for quality and comfort in temporary hearing protection.

LOUD MUSIC

- Reusable several times
- Easy to use
- One size fits all
- Economical
- Self-fitting
